Working at home and at school

Over the past weeks we have been working to develop ways of making sure the education of your children continues with minimum disruption.

We would like to thank all our Madang families for the amazing effort they have made to assist us in this process and for their support and understanding of the procedures we have been putting in place to match the evolving circumstances.

Please be assured that when schools resume as normal our priority will be to completely restore our educational programs and school events as quickly as possible. Things might not be occurring in the usual way or at the time originally planned. We will be doing our best to provide all those experiences which are unavailable to us at the moment

Keeping our schools safe for everyone

At the current time, and ONLY at the current time, we are asking visiting adults to limit their time in the school as much as possible. Hopefully we can lift this restriction and return to normal as soon as possible.

Children are continuing their hygiene practices during the day and the department has provided additional staff who are continuously cleaning the site.

Keeping in touch

We are now able to send an SMS to the family contact listed for each child. The message will be immediately identifiable as a message from the school. This will now be a method we use to contact parents for many reasons.

In the current situation, this will be the first action taken to inform parents of any kind of emergency at school. Please let us know if you change your phone number so we can make the necessary changes and make sure everyone receives the necessary information as quickly as possible.
